EDUCATION

UNIVERSITY OF MICHIGAN

Bachelor of Science in Computer Science, School of Engineering; Minor in Business, Ross School

GPA: 3.93/4.0 – 3x Dean's List; 4x University Honors, James B. Angell Scholar

Ann Arbor, MI

May 2023

BLUEDOT IMPACT

AGI Strategy (Aug 2026) • Frontier AI Governance (Sept 2026)

Remote

2026

EXPERIENCE

PATRICK MCELROY CONSULTING LLC

Founder & Independent AI Consultant

Norfolk, VA

May 2026 – Present

- Build and deploy AI agents and workflow-automation tools for small businesses outside the tech sector, including logistics and energy clients (engagements under NDA)
- Advise founders and operators on replacing manual processes with AI and on model-risk and autonomy levels for deployed systems

CARGOMATIC LLC

Head of AI Enablement

San Francisco, CA

Nov 2025 – May 2026

- Reported directly to the CEO; presented strategy and progress to the CEO, CFO, and shareholders; owned model-risk and autonomy-level decisions
- Built a network across finance, operations, and accounting teams to identify bottlenecks, then managed the full pipeline from feedback to pilots to hosted tools handling \$300M+ of revenue
- Built novel AI tool for cash application that outstripped available third-party products, handling millions of dollars weekly
- Created greenfield codebase of over 200,000 lines, managing hosting, deployment, observability, security, and communication
- Kept all-in cost of hosting and procurement under \$300 monthly at a 500,000,000+ monthly token burn rate

BLOOMBERG L.P.

Software Engineer

New York, NY

Sep 2023 – Oct 2025

- Maintained key service infrastructure for privileging multiple Enterprise Products with intensive latency requirements
- Developed multiple new libraries and services in Python and C++ used by teams across the Enterprise Products organization
- Worked with many stakeholders to push out key project migrating from internal privileging to client-facing self-enablement
- Developed user interface for experimental AI tool transforming the client experience with critical risk management product

PROJECTS & WRITING

AI POLICY POSITIONS

Founder & Developer

aipolicypositions.org

2026 – Present

- A public site that persistently tracks what members of Congress have actually said about AI, so the people working to build political support for AI safety can see where each office stands
- A first test of whether AI can accelerate building a political coalition around AI risk, the way it accelerates defensive research

ESSAY WRITING

Substack and LessWrong

patrickdmcelroy.substack.com

2026 – Present

- Essays on AI risk and policy

LEADERSHIP

BLOOMBERG AI ENGINEERING PRODUCTIVITY FORUM

Founder and Co-Lead

New York, NY

Mar 2025 – Oct 2025

- Founded and co-led 300+ member forum on AI automation practices, later endorsed as Bloomberg's official AI community
- Organized speakers from across the engineering branches of the company and hosted demos on AI-powered engineering tools
- Contributed to Bloomberg-wide documentation and playbooks for emerging AI tooling to accelerate onboarding and adoption

SHIFT CREATOR SPACE

Co-Director

Ann Arbor, MI

Mar 2021 – May 2023

- Co-managed a club of 30+ student creatives focused on pushing members to execute and providing entrepreneurial resources
- Mentored a group of 8 students in weekly meetings; alumni now at OpenAI, Amazon, Google, Bloomberg, and IMC Trading
- Coordinated meetings and presentations with company speakers from Duo, Cisco, and the Ann Arbor Art Center among others

SKILLS

Programming: Python, C/C++, TypeScript, Swift (proficient); Java, React, Vue.js, Flask, Redis, Postgres, Docker (working)

AI Tools: Claude Code, Cursor, Codex, Claude for Design, Antigravity; OpenAI and Anthropic APIs
